Bulk Corp
International

BIGGER BY CLASS
BETTER BY VALUE

THE CONCEPT

At Bulk Corp, we pride ourselves in being **a solution's driven company**. With over 2 decades of experience and expertise in the FIBC segment we have garnered the status of being a preferred packaging partner to some of the top industries worldwide.

Our growth story stems from a humble set-up in the flourishing state of Gujarat in India. With a growth-oriented approach, we have today risen to being a strong, technology driven organization that believes in Quality through Innovation. Our industrial campus stands as a testament to this philosophy, and is equipped with some of the best machines in the FIBC segment, making us **a one-of-our-kind FIBC production house in India**.

The world is changing, and so are we. By harnessing newer technologies and staying committed to innovations that exceed client expectations, we are strongly working towards becoming the global leader in the FIBC segment to provide solutions that are truly... **Beyond Bags!**

At BULK CORP INTERNATIONAL, we believe in

“Providing 360° innovative packaging solutions”

With this very ambition, we strive to offer an all-inclusive portfolio and serve the entire spectrum of FIBCs under one roof. It is our motto to become the reliable packaging partner of our clients and work alongside them in development of new and innovative packaging solutions that are specifically aimed to meet their needs.

MEET THE EXPERTS

Management is the key functioning pillar at Bulk Corp. Our erudite leadership comprises industry experts and professionals with a core experience in the FIBC segment. Our management team plays an integral role in shaping the company's methodology and ideas into products that are known for their excellence.

Punit Gopalka Managing Director

Punit Gopalka brings with him experience and know-how from beyond the Indian shores. A Masters in Business Management from Glasgow, Scotland, Mr. Punit lived in the UK for 9 years, working with some renowned multinationals. Today, he is in charge of overall functioning of the company. He is a member of both TBPA (Textile Bag & Packaging Association, USA) and FIBCA (Flexible Intermediate Bulk Container Association, USA). Mr. Punit is a part of both these organizations, as the Board of Directors of TBPA and a Committee Member of FIBCA. Simultaneously, he is also the key individual in augmenting the company's presence in the international markets by reaching out and partnering with some of the best companies of the world.

Sanjay Sadavarte Director

Sanjay Sadavarte brings with him multinational experience of almost 16 years in FIBC industry, 10 years of which were spent working in the core team of the world's foremost FIBC Company. An engineering graduate with a specialization in plastics, his extensive knowledge of operational excellence and commercial viability have been instrumental in helping some of our reputed clients get the right products for their needs. He is in charge of the overall operations, international marketing and commercial segment of Bulk Corp.

INDUSTRIAL CAMPUS

Located on the India's central highway network, the Golden Corridor, is Bulk Corp's industrial campus. Spread across a sprawling area, all facilities are equipped with the latest technology to ensure seamless production. The industrial unit is segmented strategically to ensure all processes perform optimally, and scalability of manufacturing is maintained with the vision of delivering all products on time. Aiding our comprehensive manufacturing set-up is our testing facility that performs rigorous quality checks on all facets of production right from procurement to delivery.

Printing	4 Colour Printing Machine
Packing	95 x 95 cms Pallet Bale Press 95 x 110 cms Pallet Bale Press
Liner	Glue Machine For Liners

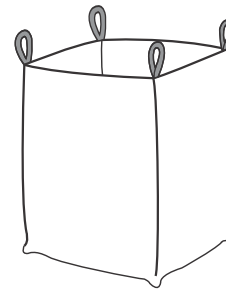

PRODUCTS & SERVICES

FIBC Bags, also known as Jumbo Bags / Bulk / Big Bags, are one of the most cost effective types of packing for storage and transportation of a wide range of materials such as chemicals, food, metal etc. Manufactured from tubular/ flat woven fabric, these bags have a large storage capacity. These bags are custom designed as per the client's requirement, thus offering a wide range of bags to choose from. We offer bags for both single-trip (5:1) and multi-trip (6:1 or 8:1) purposes. The SWL Range of the bags start from 250 kg up to 2000 kg.

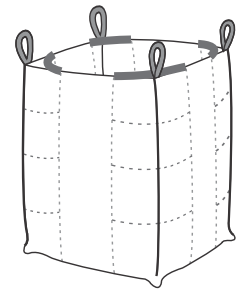

All our FIBC bags are manufactured in accordance with ISO 21898 and certificates held after testing at reputed labs across the globe.

QUALITY ASSURANCE

At Bulk Corp, the universal dictum is that **'Quality Assures Alliances'**. It is the benchmark of lasting partnerships. For this very reason, Quality is the epitome of our system. Right from procurement, to manufacturing, to delivery, all the way to aftersales service, we have the values of highest quality imbedded in every facet of our business. From cutting-edge in-house testing lab to physical quality control by skilled engineers and technicians, all products have to pass stringent monitoring phases, to ensure every FIBC bag from Bulk Corp is as per international food grade standards. One of the biggest strengths of our quality protocols is third party audit.

Intertek

Intertek

We employ reputed external quality inspectors, who report directly to the top management, thus ensuring that all our processes are always in immaculate conditions. In addition, we also use superior food grade polymers and other additive materials combined with our world-class processing technologies, throughout our manufacturing activities.

Our judicious methods are on path to earn us numerous accolades from across the world including BRC / ISO 9001:2008 / ISO 14000 / OHSAS 18001 certificates as well as a valued membership with EFIBCA (European Flexible Intermediate Bulk Container Association).

CORPORATE RESPONSIBILITY

We believe in giving back to the society that we have grown with. It is our responsibility to care for the community just as much as it is to care for the environment. With this vision, we contribute significantly towards development of the society.

Just the way the first step towards compassion begins from one's home, our first steps are towards providing our team with a safe and secure working environment. We provide comprehensive medical support to our employees as well as education support to their children. We also contribute towards helping the physically challenged find their path in life.

We have actively imbibed the philosophies of "MAKE IN INDIA", "SKILL INDIA" and "GREEN INDIA", with the vision of supporting the country's strides towards progress.
